

Dissemination of the MIMWOOD project in the teacher training courses held at CRNFP Paterna on 1 July 2019 and 8 July 2019.

The LABORA Formació de Paterna centre is the National Reference Centre for the Transformation and Installation of Wood and Cork in the field of vocational training, and for productive sectors in which it carries out training, innovation and experimentation activities.

With organic and functional dependence of LABORA, the center carries out its activities in the professional family Wood, Furniture and Cork, under guidelines of the Public Service of State Employment (SEPE) and of the Ministry of Education and Vocational Training.
